# KINGS BASIN IRWMP PROJECT LIST

Adopted 3-20-2019  
Updated 7-30-2019

Halt, and ultimately reverse, the current overdraft and provide for sustainable management of surface and groundwater  
 Increase the water supply reliability, enhance operational flexibility, and reduce system constraints  
 Improve and protect water quality  
 Provide additional flood protection  
 Protect and enhance aquatic ecosystems and wildlife habitat  
 Increase amount of groundwater in storage with intent to eliminate the groundwater overdraft in 20 years  
 Identify opportunities and projects  
 Identify DAC priority needs and promote/support solutions to DAC water issues  
 Increase average annual supply and reduce demand  
 Increase dry year supply  
 Increase regional conveyance capacity  
 Compile baseline water quality data for ground & surface water  
 Encourage Best Management Practices, policies & education that protect water quality  
 Identify sources of water quality problems & promote/support solutions to improve water quality  
 Increase surface storage  
 Sustain the Kings River Fisheries Management Program  
 Pursue opportunities to incorporate habitat benefits into projects  
 Increase public awareness of IRWM Efforts  
 Involve local water districts and land use agencies in generating and confirming the current and future water needs to ensure compatibility and consistency with land use and water supply plans  
 Comply with SBx7-7  
 Pursue opportunities to include project elements that reduce energy consumption, reduce greenhouse gas emissions, use renewable resources or include carbon sequestration strategies
